In general, who do you think is better figuring out and using technology— teenagers or adults?

Do you have a computer at home?

Do you have access to the Internet through a computer at home?

Suppose you had a research report to write either at school or work. If you had the choice, how would you prefer to conduct the research?

For students in grades 7–12, when you have to conduct an experiment or do other labatory work in your science classes at school, does that work usually help you understand what the class is studying, or not?

Next is a list of a few things that some people do on computers. Please tell us if this is something you have ever done on a computer, or not.

Used a word processing program to write a report
Used the Internet to conduct research
Played computer games
Chatted on the Internet or sent e-mail
Searched the Internet for interesting sites

Tell us whether or not you expect to see these things happened in your lifetime:

Space travel will be common for ordinary Americans
New technology will prevent wars from happening
Cloning of humans will be common
Every person in the country, including kids, will have their own portable phone and personal phone number
Home computers will work as a computer, TV, VCR, and telephone all in one
Cancer will be cured
AIDS will be cured
Most Americans will live to be more than 100 years old
Floods, earthquakes and other natural disasters will be controlled or prevented by new developments in science
Americans will vote for President and other elected officials on the Internet

For students in grades 7–12, in terms of the grades you usually get, would you say you are a top student in your school, above average, average or below average?

How many hours did you spend watching television *yesterday?*

Now thinking about the last week, meaning the last seven days, how many hours would you say you spent in total talking with friends on the telephone?

How often do you read books on your own, that is, books that are not required reading for school or work?

For students in grades 7–12, are you currently involved in any activities that require you stay after school, such as a sports team, theater, band or club?

Do you regularly carry a beeper or pager, or not?

Now here are some background questions.

How old are you?

Are you in school now, and if so, what grade? If not, what is the highest grade that you completed?

Are you, yourself of Hispanic origin or descent such, as Mexican, Puerto Rican, Cuban, or other Spanish background?

What is your race? Are you white, African-American, or some other race?

NUCLEAR REGULATORY COMMISSION

[Docket No. 55–61425–SP; ASLBP No. 97–725–02–SP]

Frank J. Calabrese, Jr.; Designation of Presiding Officer

Pursuant to delegation by the Commission dated December 29, 1972, published in the **Federal Register**, 37 F.R. 28710 (1972), and Sections 2.105, 2.700, 2.702, 2.714, 2.714a, 2.717 and 2.1207 of the Commission's Regulations, a single member of the Atomic Safety and Licensing Board Panel is hereby designated to rule on petitions for leave to intervene and/or requests for hearing and, if necessary, to serve as the Presiding Officer to conduct an informal adjudicatory hearing in the following proceeding.

Frank J. Calabrese, Jr.
   (Denial of Senior Reactor Operator's License)

The hearing, if granted, will be conducted pursuant to 10 C.F.R. Subpart L of the Commission's Regulations, "Informal Hearing Procedures for Adjudications in Materials and Operator Licensing Proceedings." This proceeding concerns a denial by NRC Staff of Mr. Calabrese's senior reactor operator's license application and Mr. Calabrese's request for a hearing pursuant to 10 C.F.R. Section 2.103.

The Presiding Officer in this proceeding is Administrative Judge G. Paul Bollwerk, III. Pursuant to the provisions of 10 C.F.R. § 2.722, the Presiding Officer has appointed Administrative Judge Thomas D. Murphy to assist the Presiding Officer in taking evidence and in preparing a suitable record for review.

All correspondence, documents and other materials shall be filed with Judge Bollwerk and Judge Murphy in accordance with C.F.R. § 2.701. Their addresses are:

Administrative Judge G. Paul Bollwerk, III, Presiding Officer, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555
Administrative Judge Thomas D. Murphy, Special Assistant, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555

Issued at Rockville, Maryland, this 26th day of March 1997.
B. Paul Cotter, Jr.,
Chief Administrative Judge, Atomic Safety and Licensing Board Panel.

[Docket Nos. 50–325 and 50–324]

Carolina Power & Light Co. Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License Nos. DPR–71 and DPR–62, issued to the Carolina Power & Light Company (the licensee), for operation of the Brunswick Steam Electric Plant (BSEP) Units 1 and 2 respectively, located near Southport in Brunswick County, North Carolina.

The proposed amendment would revise the Technical Specifications (TS) for BSEP Units 1 and 2 to eliminate certain instrumentation response time testing requirements in accordance with
